

## January 5th MMAC

One of our new members, Jason Potosky, is going to give a talk on making RC planes using DollarTree foamboard. The stuff is cheap, strong, and easy to find, but like all new methods there's tricks that make it easier, and better use. It's easy to build a plane from \$3 worth of foamboard, so give it a try.

Hope to see you at the meeting.

Rich
